

D0 Status Report

Bill Lee
FNAL

All Experimenters' Meeting
21 June 2010

Data Taking

	Delivered Lum (pb ⁻¹)	Recorded Lum (pb ⁻¹)	Efficiency (%)	Comment
--	--------------------------------------	-------------------------------------	-------------------	---------

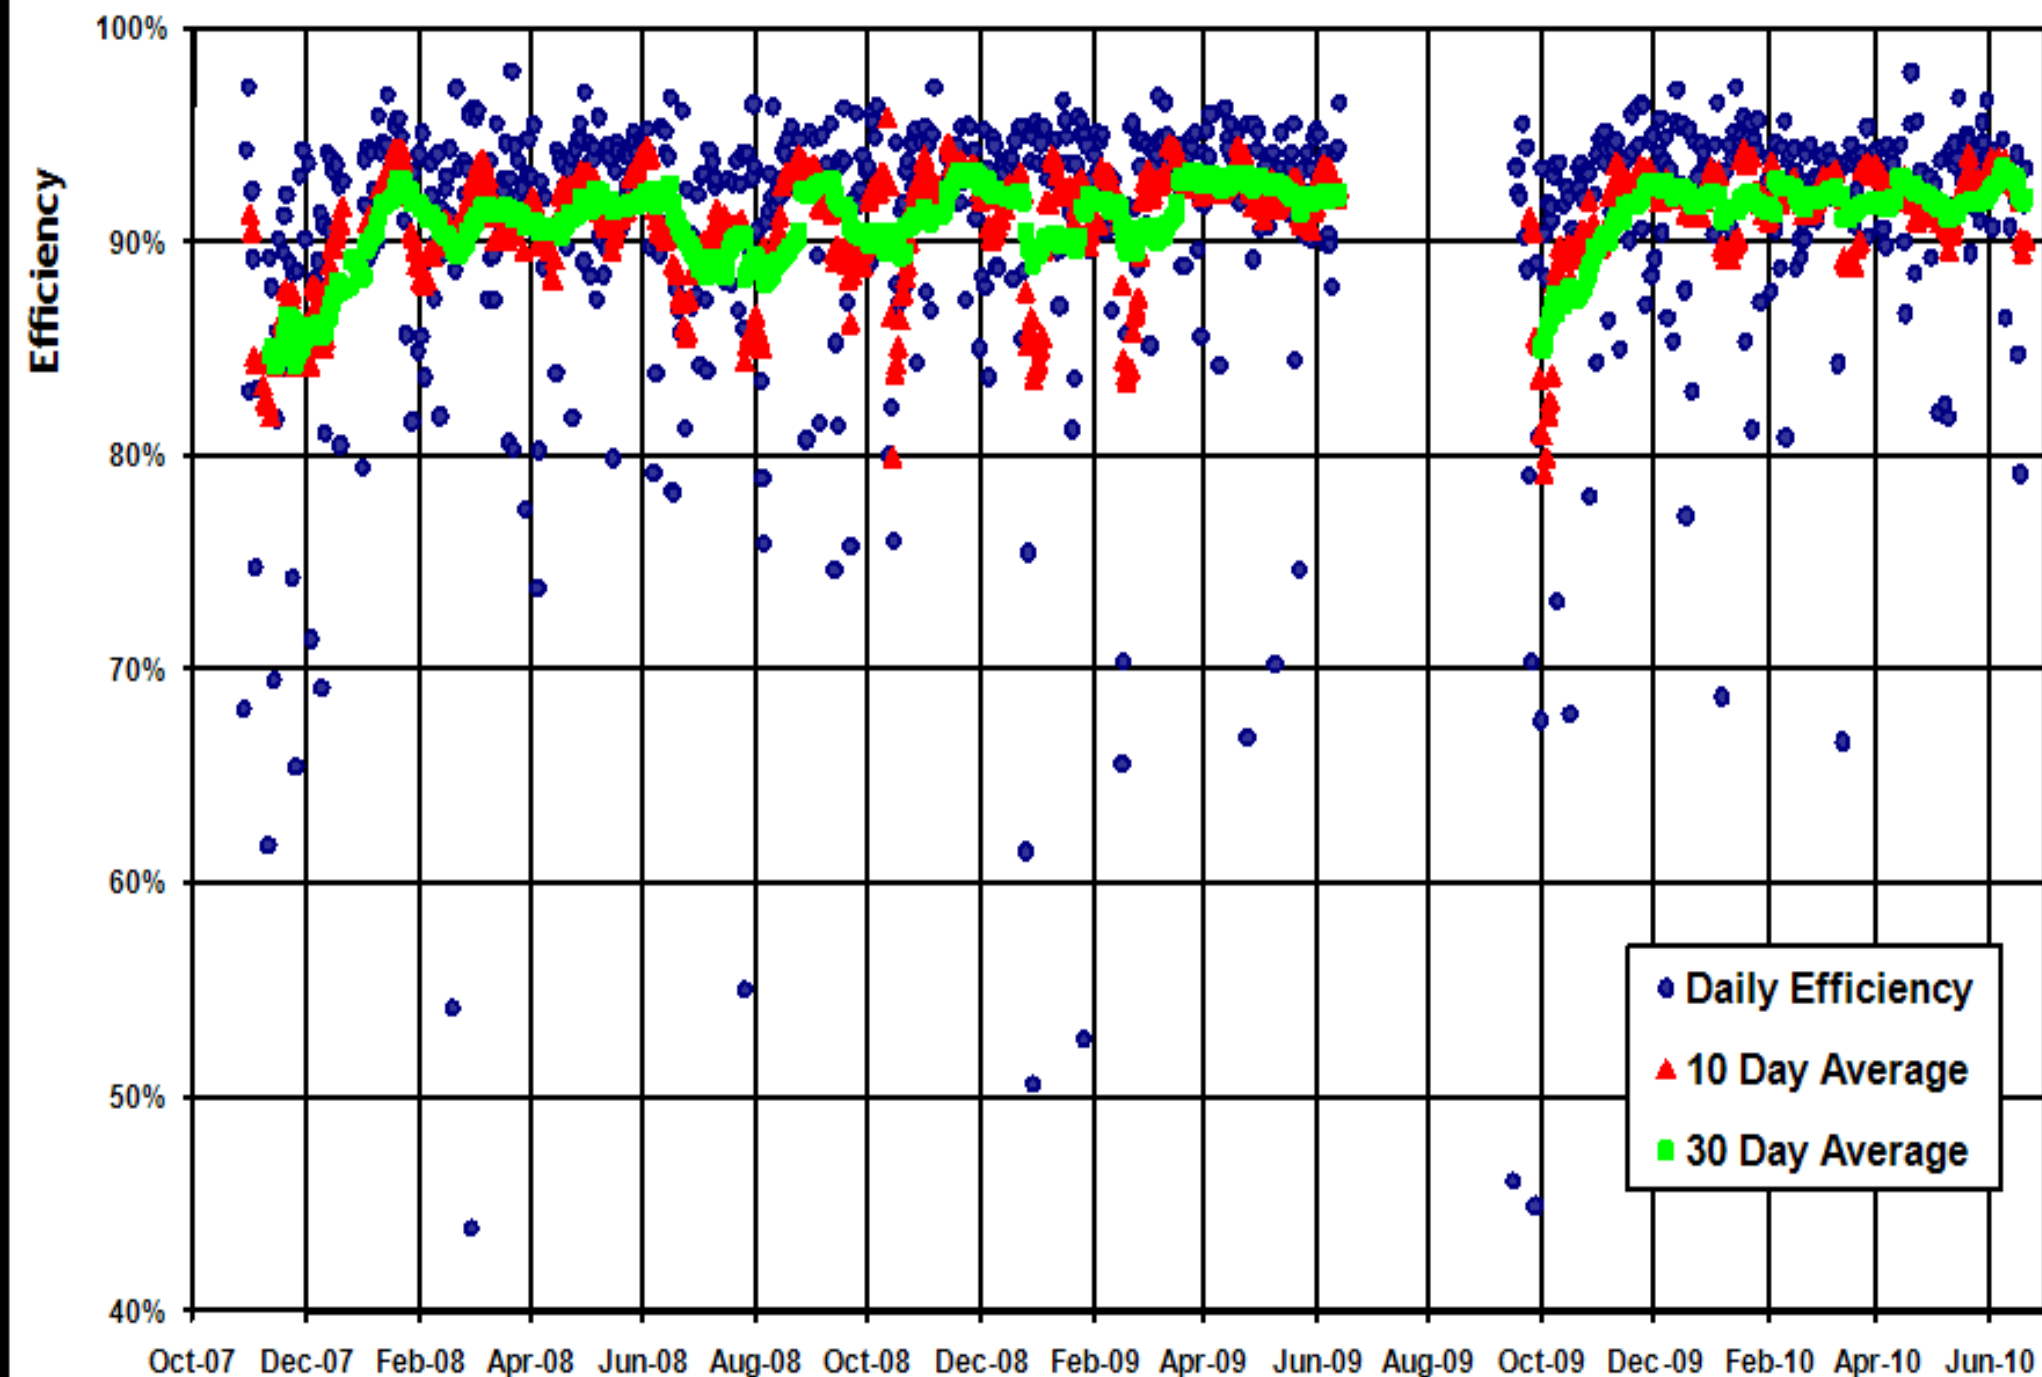

14 Jun	10.70	9.86	92	
15 Jun	7.75	7.30	94	
16 Jun	5.36	4.55	85	VESDA alarm shuts down power to central platform for 2.5 hours.
17 Jun	11.26	8.91	79	(1.5 additional hours of VESDA issue) 40 minutes down due to fiber tracker problem. 45 minutes down for a failed forward muon scintillator power supply.
18 Jun	6.69	6.00	90	1 hour down for a failed forward muon MDT power supply. Access to replace 2 forward muon power supplies and repair monitoring of L1muon power supply.
19 Jun	11.14	10.23	92	
20 Jun	6.47	6.05	94	

14-20 June	59.4	52.9	89	
-----------------------	-------------	-------------	-----------	--

Daily Data Taking Efficiency

1 October 2007 - 20 June 2010

Run II Integrated Luminosity

19 April 2002 - 20 June 2010
